

# SHAROZ JAVAID

## UX RESEARCHER

I am a creative, self-motivated, and mindful individual who enjoys problem solving and working in multidisciplinary teams. I'm looking for a UX researcher position where I can put my skills in active listening and effective communication to work collaboratively with people and understand their needs. I am excited to join a dynamic team where I can gain new perspectives and continue to hone my product and user experience skills.

## EXPERIENCE

### The Design Lab / UX Researcher

Jan 2023 - Present / San Diego, California

- Collaborated closely with a clinical behavior psychologists to understand the specific needs and challenges faced by Type 2 diabetic patients.
- Followed the double diamond design process to develop and deliver a final prototype. Conducted secondary research and user interviews to gather insights on patient needs and preferences.
- Created posters to promote user testing and recruited participants online. Posted the posters on social media and relevant forums to increase visibility and engagement.

### Editair /Product Designer

Aug 2022 - Present / San Diego, California

- Contributed to the creation of wireframes, mockups, and prototypes to effectively communicate design ideas to stakeholders.
- Used Bootstrap and Python to develop the website, ensuring that it was visually appealing, user-friendly, and responsive.
- Experience in working with project management tools such as Asana, Trello, and Jira to manage tasks and collaborate with team members.

### Blockchain at San Diego / UX Researcher

Jan 2021 - Jan 2022 / La Jolla, California

- Conducted qualitative research through diary studies and interviews to thoroughly understand the user. Conducted and coordinated usability interviews to gain insight on user needs.
- Focused on the consumer-facing experience, from start to finish (research, design, test, implement) as a research/designer with a team of 4. Maintained design consistency through design systems and created design components.
- Managed UX backlogs, defined milestones for our team and led design reviews.

### Buzz. / Product Manager Intern

June 2020 - August 2020 / La Jolla, California

- Worked closely with the product team to write MVP specs for the first version of the mobile app.
- Worked with web sockets to create a bi-directional communication channel for chat services in Node.js.
- Worked heavily with google maps and map box for live geolocation rendering.
